Schedule 3 – Application Information

1.	Application form, Schedules 1 to 11 must be submitted in triplicate copies.
2.	Application fees:

a) Class 2, 3 & 4 Systems, less than 10,000 L/day \$825.00
 b) Class 5 Sewage Systems, Septic Tank Replacement, Septic Bed Replacement \$500.00
 c) Minor Repairs (at the discretion of the CBO) \$200.00

- 3. No application will be processed if a copy of the Transfer/Deed of Land or a municipal tax receipt and architectural drawing for the property in question are not enclosed.
- 4. Any changes subsequent to the original application will require that a Certificate of Change and fees be submitted to our office Section 8.(12)(13)(14) of the Building Code Act.
- 5. Contact your local Conservation Authority if the said property is located in proximity of a waterway, in a zone subject to landslides or unstable slopes. A development permit may be required from the authority **Section 8.(2)(a) of the Building Code Act.**
- 6. The Township of South Glengarry strongly recommends that fencing or equivalent protection encircle any test pit or any septic/holding tank excavation until placement of backfill material, and that tank access lids always be maintained in place. The Township of South Glengarry and its agents will not assume any responsibility for negligence relating to these safety measures.
- 7. The operator/owner of the sewage system shall keep it maintained at all times so that its construction remains in accordance with the requirements of the Ontario Building Code. Vehicular traffic (including snowmobiles and ATVs) must not be allowed over the leaching bed. Do not allow roof drains to discharge to the treatment unit or surface waters to drain towards the area of the leaching bed Section 8.9.3.2.(1)(2) of the Ontario Building Code Act.
- 8. The sewage system permit will be cancelled after 12 months of the date of issuance of the said permit **Section 8.(10)(b)(c) of the Ontario Building Code Act.**
- 9. Tile drainage within 8 metres of the leaching bed must be recovered or the lines broken so as to prevent the entry of sewage effluent into the drains **Table 8.2.1.6. B and Section 8.2.1.6(2) of the Ontario Building Code**.
- 10. We recommend that hard maple, elm, ash, and evergreen trees be kept at a distance of 5 metres and that silver maple, soft maple, willow family, poplar, or any large trees, be kept at a distance of 8 metres. We may require a letter from the applicant accepting responsibility for any damages caused to or by any trees **Section 8.9.3.2.(2) of the Ontario Building Code.**
- 11. The building shall be located and the building site graded so that water will not accumulate at or near the building and will not adversely affect any adjacent properties **Section 3.1.17.1.(1) of the Ontario Building Code**.

- Sump pumps and floor drains are not to be connected to the sewage system. Connection of such fixtures to a sewage system may lead to a hydraulic failure of the said system. The above-mentioned fixtures should be discharged separately to an approved Class 2 (leaching pit) sewage system.
- 2. Where laundry waste is not more than 20% of the total daily design sanitary sewage flow, it may discharge to a sewage system (Part 8, OBC, 8.1.3.1(2)).

SCHEDULE 12 - ONTARIO BUILDING CODE MAINTENANCE AND SERVICING REQUIRMENTS

This information sheet is designed to inform the property owner of the Ontario Building Code requirements for maintenance and servicing of the proposed treatment unit indicated on your design that is used in conjunction with the leaching bed constructed as a shallow buried, Type A or Type B dispersal bed

Building Code states:

8.9.2.3. Class 4 Sewage Systems

- (1) Every Class 4 sewage system shall be operated in accordance with the literature required by Sentence 8.6.2.2.(6).
- (2) No person shall operate a *treatment unit* other than a *septic tank* unless the person has entered into an agreement whereby servicing and maintenance of the *treatment unit* and its related components will be carried out by a person who,
 - (a) possesses a copy of the literature required by Sentence 8.6.2.2.(6), and
 - (b) is authorized by the manufacturer to service and maintain that type of *treatment unit*.
- (3) The person authorized by the manufacturer to service and maintain the *treatment unit* and who has entered into the agreement referred to in Sentence (2) with the person operating the *treatment unit* shall notify the *chief building official* if,
 - (a) the agreement is terminated, or
 - (b) access for service and maintenance of the treatment unit is denied by the person operating the treatment unit.

8.9.2.4. Sampling of Treatment Units

- (1) Every person operating a treatment unit that is used in conjunction with a leaching bed constructed as a shallow buried trench, Type A dispersal bed or Type B dispersal bed shall,
 - (a) take a grab sample of the effluent to determine the level of CBOD₅ and suspended solids in the effluent,
 - (b) carry out the sampling required by Clause (1)(a) in accordance with the methods described in the APHA/AWWA/WEF, "Standard Methods for the Examination of Water and Wastewater", and
 - (c) promptly submit the results of the sampling required by Clause (a) to the chief building official.
 - (2) Except as provided in Sentence (4), the sampling required by Sentence (1) shall be conducted,
 - (a) initially, once during the first 12 months after the sewage system was put into use, and
 - (b) thereafter, once during every 12 month period, at least 10 months and not more than 18 months after the previous sampling has been completed.
- (3) The concentration of $CBOD_5$ and suspended solids in the grab sample described in Sentences (1) and (4) is deemed to comply with the maximum concentration requirements set out in Table 8.6.2.2. when it does not exceed 20 mg/L for each of these parameters.
- (4) If the results of the sampling required by Sentence (1) do not comply with Sentence (3), the person operating the *treatment unit* shall,
 - (a) resample the *effluent* in accordance with Clauses (1)(a) and (b) within 6 months after the previous sampling has been completed, and
 - (b) promptly submit the results of the resampling required by Clause (a) to the chief building official.

At any time the above requirements are not adhere, the sewage system located	on your
property will not be in conformity with the building code.	•
