Netsolid

Administration has been approached by Netsolid, inquiring about the possibility of utilizing the Redwood Estates Water Treatment Plant as a location for a relay site, which would involve placing a small tower on the Township's property. The installation of the relay site would result in the ability for Netsolid to provide residents of Redwood Estates with high-speed internet services of 100/50 mbps. Netsolid has offered to provide the Township with free internet access at the Water Treatment Plant in exchange for locating the relay site on the property.

Lancaster Play Structure/Char-Lan Recreation Centre Project.

Proponents were invited to provide the design, excavation, supply and installation of a new play structure at the North Lancaster Optimist Park. Council awarded Tender 01-2022 to Playground Planners in the amount of \$59,936.00 plus HST.

Proponents were invited to provide a proposal for the Char-Lan Recreation Centre Project. The Township received \$1,026,620.00 from the Investing in Canada's Infrastructure Program for the arena floor and dasher board project. Council awarded Tender 07-2022 to Bradley Contracting in the amount of \$1,255,024.07 plus HST.

Physician Recruitment HGMH

Dr Kucherepa Chief of Staff presented a Physician Recruitment incentive to Council. The Glengarry Memorial Hospital offers incentives for new doctors and is proposing a \$5000.00 contribution per new doctor from the Township of South Glengarry, North Glengarry, and SDG Counties. The hospital has not recruited any new physicians since 2018 and recently lost five physicians due to relocation and retirement leaving approximately 3150 patients left without a physician. Council directed staff to report back with a staff report supporting the recruitment incentive at an upcoming council meeting.
