Next Meeting Date: Monday, June 20th, 2022.

Glen Walter Water/Wastewater Expansion

The Township has been investigating and studying options to expand water and wastewater services in the Glen Walter area for more than a decade. A Master Plan approved in February of this year identified the completion of an Environmental Assessment for the expansion of the water treatment and water pollution control plants as the next step in the process. Council awarded the request for proposals for professional services to complete these works to EVB Engineering. In total, three submissions were received. Council looks forward to continued progress on this important infrastructure initiative.

Glen Walter Waterfront Park: Concept Plan

At the 2022 Budget meetings, Council approved \$25,000 for the development of the Glen Walter Waterfront Park. The items discussed in the Concept Plan for the park include seating, a bike repair station, bike parking, signage, and landscaping. These items will help define the site as a designated passive park area. This addition will create a spot for cyclists to safely take a break while they are cycling along the Ontario Waterfront Trail. It is anticipated that a large portion of these plans will be completed by the end of June. Council was presented with a visual of the concept and all agreed it will be a great addition to our waterfront.

Recognition of Pride Month

Council officially recognized June as Pride Month throughout the Township of South Glengarry and directed that the rainbow flag be raised at the municipal office in Lancaster and at the Char-Lan Recreation Centre. Pride month is a month-long celebration and observance of lesbian, gay, bisexual, transgender, queer and 2-spirited (LGBTQ2+) people and the history, culture and contributions of the LGBTQ2+ communities.
